Relaxing in the comfort of your home is easy with the Model 113A because this is one durable and reliable air conditioner. Durability is built-in with our DuraGuard™ protection package that looks good for years while protecting the outdoor coil from sports and lawn equipment and more. Inside, corrosion-resistant components and compressor-protection features help ensure this air conditioner delivers comfort when you need it.

In addition, Bryant’s Model 113A provides the peace of mind that comes with choosing a system developed by a company known for its commitment to customer satisfaction. From initial design through product testing and an assembly process that includes our 5-step, 100% run test, we go beyond the industry’s expectations for quality and reliability to be sure that every unit we make measures up to even tougher standards – yours.
Perfect Your Comfort with Perfect Humidity™

The Model 113A is your trusted source for cool comfort. For enhanced control over temperature AND humidity, add a variable speed furnace or fan coil and our Thermidistat™ Control. This system will give you full, seven-day-a-week programmability and our comfort-enhancing Perfect Humidity™ function. Perfect Humidity elevates your comfort by providing up to 30 times the humidity control of standard heat pump systems.

Environmentally Sound Comfort, Future Savings

With the Model 113A, you join the growing ranks of homeowners who choose environmentally sound Puron® refrigerant. It’s an important consideration because Freon®-22*, the refrigerant most commonly used in air conditioners, is gradually being phased out of existence due to concern over the Earth’s ozone layer. In fact, manufacturers such as Bryant will no longer manufacture Freon-22 products as of January, 2010. While these products may continue to be available as inventories last, costs to service air conditioners using Freon-22 may rise as supplies dwindle. By choosing the Model 113A with Puron refrigerant now, you are helping preserve the ozone layer while protecting yourself from potentially expensive service costs down the road.

* The registered owner of Freon is E.I. Dupont de Nemour & Co.
Home Comfort Components

1 ENVIRONMENTALLY SOUND
Our scroll compressor is designed for use with Puron® refrigerant to provide quiet comfort and years of environmentally sound, energy-efficient performance.

2 RELIABLE PERFORMANCE
Bryant’s Microtube™ Technology refrigeration system with copper tube/aluminum fin coil maximizes transfer of heat outside your home to ensure cooling efficiency. Coil materials and design minimize chances for rust and corrosion for lasting performance.

3 LASTING COMFORT
A filter drier protects the unit’s most important single component: the compressor.

4 BUILT TO LAST
Bryant’s DuraGuard™ protection package ensures lasting durability and good looks through years of exposure to weather, sports and lawn equipment and more. Three key elements to this package include: galvanized steel cabinet, baked on powder paint and wire coil guard.
